News from the Activity Department...

April showers bring May flowers, I think we are all ready for some warmer weather. The resident's have seen some robins and are watching for the plants outside to start blooming! The garden will be opening soon so they can get outside and get some fresh air and sunshine. Hopefully we can start doing van rides again soon once the weather warms up.

We are going to start filling Easter eggs for the Easter Egg Hunt at Zeidler Park on Saturday, April 16th at 10:00 a.m. In the past the residents have enjoyed filling the Easter eggs and this year is no exception. The Nursing Home along with Dr. Josh Baker purchased the candy and treasures for the eggs. We will be filling over 2,000 Easter eggs for the hunt.

We are also looking for some buttons for a spring activity. If anyone has any extra buttons, any size or color please drop them off on the porch. If you have any questions don't hesitate to call!

Hope you and your family have a happy Easter!

After 27 years of service Mark Waite, Maintenance Director, has decided to hang up his tool-belt and “do my own thing.” We wish Mark the best!

Josh Dannen has been training with Mark for the last 3 weeks and will take over the position on April 1st. Welcome to our team!

Mark and his motorcycle....ready to hit the open road!

Fun Facts about Easter...

Americans will consume more than 16 million jelly beans. That's enough jelly beans to circle the globe not once, not twice, but *three times* — or to fill a plastic egg the size of a nine-story building.

Easter is the second biggest candy-consuming holiday. It comes in second only to Halloween. Americans spent approximately \$1.9 billion on Easter candy last year.

It used to take more than a day to make a Peep. Approximately 27 hours, to be precise. That was back in 1953, when each candy was handmade with a pastry tube — but today they have machines that have dramatically sped up the process to just six minutes.

Most Americans bite off the ears of a chocolate bunny first. In fact, a whopping 76% say that's where they take their first mouthful, followed by 5% who eat the feet first, and 4% who eat the tail first.
